

R C Cars Policy & Procedure

Turn on controller first. (fresh AA batteries)

Install car battery (with cord) and plug in.

Push small button on ESC (electronic speed control) for 1 second.

-
1. Charge batteries about 30 minutes before racing
 2. separate and organize Parts, Tools and Cars
 3. Store all car parts together for each vehicle (car, controller, body)
 4. Referees must stay active on both sides of track, keeping cars upright
 5. keep back up batteries on DUO charger during play
 6. clean cars with air pressure from compressor if needed.
 7. turn OFF all controllers before closing building
 8. TEXT Marshall any missing or broken parts needed.
